

**Frustrated with tightening bolts? Losing tooth holders?
Excessive wear? Damaging gear boxes and drive trains?**

Schibeci Cutter Drums solve these problems.

Schibeci Cutter Drums are **low maintenance**.
Their fluid dynamic design increases **fuel efficiency**.
If you hit a manhole or expansion joint, **just replace tools, not blocks**.
Less Material is left on the ground at the end of each cut.
The pattern will remain consistent throughout the life of the drum
because of the low wear coefficient.

You can cut:

- ▶ Asphalt
- ▶ Concrete
- ▶ **Reinforced Pavements**
- ▶ Heavy Limestone
- ▶ And numerous other pavement types

Schibeci Drums range from **75mm (3 inches) to 5000mm (200+ inches) wide**.

Schibeci cutter drum technology and designs are internationally recognised and awarded.
(Better Roads 2004 - Top Rollout Award)

Schibeci Drums are available for all makes and models of milling machines.
