Power Profilers

PP 3500R, 2500, 2500R & 1500

"Built for Concrete, Mortar & Tile Removal."

Designed for bulk removal of concrete, ceramic tiles & epoxy mortar toppings.

Specifications	
PP 3500R - Cutting Width	350mm (14")
PP 3500R - Hydraulic Flow	50-200 LPM (11-44 GPM)
PP 3500R - Weight	700kg (1,550 lbs)
PP 2500 - Cutting Width	250mm (10")
PP 2500 - Hydraulic Flow	100-200 LPM (20-44 GPM)
PP 2500 - Weight	820kg (1,800 lbs)
PP 2500R - Cutting Width	250mm (10")
PP 2500R - Weight	450kg (992 lbs)
PP 1500 - Cutting Width	150mm (6")
PP 1500 - Weight	450kg (992 lbs)
Cutting Depth (all models)	45mm (1.8")
Pressure Range	150-350 Bar (2,100-5,000 PSI)

Key Features

- Water Spray Bar
- Dust Suppression Port
- Direct hydraulic drive
- Enclosed cutter box to aid dust suppression
- Quick-change tooling
- High accuracy depth control

Compatible for Mini Loaders
