SP100 Spreader

Designed to spread:

- Lime
- Cement
- Stabilising binders

The **SP100** is a 1 metre lime and cement spreader that runs off your loader's hydraulics.

A fully adjustable feed rate lets you set exactly how much binder goes down, laying an even layer ahead of the stabiliser. Pair it with a Schibeci ST600, ST1000 or ST1500 to spread and mix binder on the same job.

Above: SP100 spreading binder ahead of stabilising.

Suits Skid Steers & Track Loaders
Fully Adjustable Feed Rate
Schibeci attachments are made for tough conditions

Specifications	SP100
Spreading Width	1000 mm (39 inches)
Feed Rate	Fully adjustable
Hydraulic Flow Required	80 lpm (21 gpm)
Pressure Range	200 Bar (3000 PSI)
Operating Weight	800 kg (1770 lb)
Spreads	Lime and cement

Features

- 1 Metre Spreading Width
- Even Binder Layer
- Adjustable Material Flow
- Pairs with ST Stabilisers
- Direct Hydraulic Drive
- Built for Tough Conditions
